## AN IMPORTANT NOTICE REGARDING COVID-19

A major concern regarding the COVID-19 virus is the emergence of the Delta variant, a highly contagious SARS-CoV-2 virus strain, which was first identified in India in December. It then swept rapidly through that country and Great Britain as well. The first Delta case in the United States was diagnosed in March and it is now the dominant strain in the U.S., according to the Yale Medicine website.

Recently, the Centers for Disease Control (CDC) revised their mask guidelines to recommend masks indoors for both vaccinated and unvaccinated people in areas where there are higher rate of transmission. Consequently, and until further notice, the North College Hill City Center policy of masks for all when entering city facilities will be reinstated effective immediately. This includes 1500 W. Galbraith Rd. and 1646 W. Galbraith Rd.

Our hope is that all of our citizens will remain vigilant in keeping themselves protected, especially in enclosed spaces.
